

WASP funding of the WASP-DDLS project

The WASP part of the project is funded by a maximum of **1 MSEK per year for a maximum of two years** (including indirect costs) and can include funding for

- Salaries or part of salaries for PI, co-PI and project participants including a maximum of 50% "LKP" for personnel costs
- Travel costs
- Material costs
- Depreciation costs
- A total of 17,5 % overhead divided as 14% indirect costs and 3,5% for premises costs are covered

For a post-doc position you should allocate funding according to the WASP standard funding for postdocs, see below:

- The postdoctoral fellow's salary and a maximum of 50% "LKP".
- The postdoctoral fellow's material costs up to an amount of SEK 5,000 per year for a maximum of two years.
- Travel costs up to an amount of SEK 15,000 per year for a maximum of two years.
- A maximum of 50% "LKP" for personnel costs.
- A total of 17,5 % overhead divided as 14% indirect costs and 3,5% for premises costs.

It is expected that the WASP universities cover the remaining "LKP" and overhead such that all personnel costs are fully covered.

The funding will be received according to WASP standard process for requisition.
